

Truss

Statewide Staging Systems are proud of their reputation as supplier of quality products and services.

At the heart of this are our custom designed and fabricated Aluminium trussing components.

As the manufacturer of our systems we know exactly what materials have been used so we stand by our load charts.

Our truss comes in 3 basic configurations:

- 350mm box truss, spigot and 4 x 16mm h/t bolt join
- 450mm box truss, spigot and 4 x 16mm h/t bolt join
- 750mm x 650mm concert truss, Custom coupler and pin joint.

Standard lengths:

1m, 2m, 3m, 4m, 5m, 6m

(plus various custom lengths for specialist applications.)

Standard Systems:

- Ground Support Systems
- Truss Arches for LCD Screen and PA Support
- Line Array Speaker towers, 9 - 12m
- Stand alone LCD and Screen systems.

Statewide Staging Systems are continually developing and refining designs to deliver new and innovative products into the entertainment market.

2009 / 2010 will see the advent of major new designs and capabilities.

Stay tuned.
